## RIVALS "THE SPOILERS."

The one rival to that great photoplay production, "The Spoilers," has been filmed by the Selig Company. "THE NE'ER-DO-WELL" was also written by Rex Beach and a majority of the Selig stars who aided in making "The Spoilers" famous, appear in its worthy successor, "THE NE'ER-DO-WELL."

A special company of Selig stars, including Kathlyn Williams, Wheeler Oakman, Eugenie Besserer, Jack McDonald, Frank Clark, Harry Lonsdale and others, were escorted to Panama by William N. Selig in order that true atmosphere called for in Rex Beach's story might be filmed.

The operation of a Panama fire department is not the least interesting of the many scenes in and near the Canal Zone. In the opening reel of "THE NE'ER-DO-WELL," there is a hand-to-hand combat that is one of the most realistic ever presented in motion pictures.

At the Star Theatre on Oct. 5-6.

## DOG TAX COMING IN SLOWLY

**Late Comers Will Have to Pay Fine, Says Collector Jacobs.**

Owners of dogs in Columbia are apparently forgetting the fact that now is the time for the annual license to be secured. Only four have visited the office of Collector B. W. Jacobs. Last year a total of 596 licenses were issued.

The old licenses expire next Monday. The new licenses are supposed to have been secured by that time. The law allows until October 15. "All persons who have not paid their tax by October 15 will get to pay a fine of \$9.75 along with the \$1.75 license fee," said Collector Jacobs this morning. "I shall file complaints against all men who have not met the requirement by that date, and let them settle with the court. I am eight weeks behind in my work now, as a result of my recent sickness and cannot be bothered by six hundred people trying to pay their dog tax at the last minute."

## Alumni Engineers Meet.

The St. Louis alumni of the School of Engineering of the University of Missouri began their regular monthly meetings last Friday. The object is to keep the alumni together and to aid in getting new positions for the members. Dean McCaustland, and Prof. L. M. Defoe, both of the School of Engineering attended the meeting.

## M. U. MAN TO ENTER BALLOON IN BIG RACE

**Albert Von Hoffman, Agricultural Student, Is Licensed Aero Club Pilot.**

## TO GO TO MUSKOGEE

**Will Start from Oklahoma in National Contest October 7—Has Experience.**

Albert von Hoffman, Jr., 913 Locust street, a junior in the College of Agriculture, has entered and will pilot personally his balloon, St. Louis I, in the National Balloon race from Muskogee, Okla., October 7. Pilot John Berry, who has entered the balloon Miss Sophia, and Captain H. E. Honeywell, who has entered the Uncle Sam, will be Hoffman's opponents. Hoffman will leave next Wednesday to complete his arrangements.

This is Hoffman's third year as a contestant in the national race. On his two previous flights, he served as aid to Captain W. F. Assman, holder of the long-distance record. He has made exhibition ascensions also.

Hoffman is a licensed pilot of the Aero Club of America and is one of the forty in this country. He qualified by making five flights with a pilot, an all-night trip and a "solo" trip, taking Governor Major up as fellow-passenger on the latter trip from St. Louis in July, 1914.

Hoffman is a balloonist by hobby. He made his first ascension from St. Louis in 1911, when only 15 years old. He has an altitude record of 15,200 feet and has traveled 60 miles an hour. He ascended and descended successfully after dark at Wichita, Kan., last December. His balloon was illuminated by searchlights. A height of 5,000 feet was reached.

The St. Louis I, in which Hoffman will make his ascension this year, has a national reputation. It has been piloted in the last six national races. It is a full-sized racing balloon, owned by Hoffman. The sphere is 83 feet in diameter, weighs, fully equipped, 1,680 pounds and stands 83 feet. It is equipped with thermometers, stadioscopes—used to ascertain whether the balloon is rising or falling—a barograph to record the altitudes of the trip and a watch aneroid to record oscillations in the higher altitude. The balloon leaves the earth with a weight of 3,600 pounds, of which 1,920 pounds are ballast. The St. Louis I, completely equipped, is valued by its owner at \$5,600.

Hoffman will leave Columbia next Wednesday, to visit his parents, Mr. and Mrs. Albert von Hoffman of St. Louis. He will arrive at Muskogee on Friday.

## TOO FEW EXHIBITS AT FAIR

**Dean McCaustland Would Have All Departments Represented.**

Dean E. J. McCaustland of the School of Engineering, who visited the State Fair last week, believes that too few of the divisions in the University are represented there. He says that only the College of Agriculture, the School of Engineering and the School of Mines, and the departments of physics and chemistry have exhibits. The exhibits are shown under the title of "University of Missouri" and those who have no other knowledge of the University are lead to believe there are no other departments. He thinks there are many things the other departments are doing that would display to an advantage at the fair and make the people of the state take more interest in the University.

## W. L. NELSON A PRIZE WINNER

**Takes Second Honor in Picture Contest of St. Louis Star.**

W. L. Nelson, assistant secretary of the State Board of Agriculture, has been awarded second prize in the St. Louis Star pictorial contest, which has been in progress for the last three months. Mr. Nelson takes second honors with a photograph entitled "Inquisitiveness," showing one of the handsome bulls of the University farm calmly nosing a camera perched on a tripod in the center of a field.

Over 1,000 pictures were entered in the contest. The photos were printed on the back page of the Star as part of the daily pictorial page feature recently introduced by the newspaper. The winners of first and second prizes were awarded kodaks.

## Cadet Band to Number 45 This Year.

The University Cadet Band will have forty-five members this year. Eighty men are competing for places in it. George Venable, director, thinks the material for the year is exceptionally good.

For sale—5-passenger Cadillac. Electric lights and starter, overhauled and newly painted—\$500—Taylor's Garage. T.—25

## MANUAL ARTS MEN IN DEMAND

**High Schools and Universities Want Teachers at Good Salaries.**

One department in the University that has more applications for men to fill position than it can accommodate is the department of manual arts. Practically all the calls are for teachers. According to I. S. Griffith, associate professor of manual arts, the

department is unable to fill half the applications and often sends underclassmen and sophomores to take places that graduates would be glad to get. Many of the inquiries come from high schools and some from state universities.

For sale—5-passenger Ford, with demountable rims, newly painted—\$225—Taylor's Garage. T.—25.

**Needs the News Worse Than Money.**  
C. H. Skinner, Jr., LL. B. '85, has written the Missourian from Bolivar, Mo. Skinner wants the Missourian for a year and also adds, "Like all young lawyers, I need the money, but I need the news worse."

A car load of the new 1917 Chevrolet cars have just been received by them at John N. Taylor Garage. T. 24
